

**State of Washington
Department of Transportation
Notice to Consultants
SR 167 Extension General Engineering Consultant**

The Washington State Department of Transportation (WSDOT) solicits interest from consulting firms who would like to provide general engineering consultant (GEC) services working collaboratively with WSDOT to deliver transportation improvements for the SR 167 Extension Project. One (1) Negotiated Hourly Rates Agreement will be awarded. WSDOT anticipates the size of the GEC agreement to be in the range of \$5-\$6 million and the agreement will be for the duration of January 2006 through June 2009. An effective SR 167 Extension GEC will be crucial to positioning this project ready to respond to future additional funding.

Firms that Submitted a Statement of Interest
